

**Inès is a trendy jewelry brand,
playing with precious stones
and their fancy colors**

www.ines-jewelry.com

**«Since my childhood,
I have been fascinated
by the color, constant
shine, rarity and
mysterious charm of
precious stones.
I have had the chance
to pursue my dream and
spend time in several
towns throughout
the world to study
gemology.
Individual stones are an
essential source of
inspiration to me... »
To me Inès Jewelry is a
dream which has
become reality ;
an opportunity to do
what I love with the
person who is closest
and most dear to me.
Nathalie.**

*The company was founded in 2010 by two sisters, Caroline and Nathalie. Sharing a similar passion while combining a different set of skills, they decided to create a line of jewels which blends a **contemporary design with a fresh and delicate approach.** Each of the stones which make up our creations is chosen meticulously, trying to achieve a balance between modernistic flashy colors and the more classical nature of gold and diamonds.*

Caroline: « I have always loved experimenting with fashion, following and anticipating the latest trends. But I am certainly not the same dedicated and skilled artist as my younger sister. Most importantly we work in perfect harmony, as only sisters can ».

Nathalie graduated from the G.I.A Institute in Jewelry Design in New York after which she also obtained degrees in Gemology from I.N.G in Paris and a certificate in Diamonds from the G.A.A in Sydney. She lives and designs in Geneva.

Caroline graduated with a degree in Business Administration from E.D.C in Paris. She lives in Dubai with her family.
